YEAR 7 2024 ASSESSMENT HANDBOOK

COMMONLY ASKED QUESTIONS

What is an assessment task and why is it so important?

Assessment is the opportunity to show what **you know** and what **you can do**.

Your assessment tasks will help to diagnose your strengths and weaknesses so that teachers can focus their teaching on what you need to learn to be successful at school. You will also find out about areas to concentrate on to improve.

There are assessment tasks in each subject. This will happen in each year of high school and you will be able to access the information in this booklet on the school website: www.mitchell-h.schools.nsw.edu.au

The tasks that you will complete could be:

- formal examinations
- tests
- assignments
- essays
- creative works
- field studies
- excursion reports
- in-class assessment task.

All assessment tasks contribute towards your achievement and grades and must be completed. The results of this work will be shown in your Half Yearly and Yearly Reports. In-class, you will be given a sheet showing you the assessment schedule for each subject. It will tell you when each assessment task will be held, what you will be assessed on, and what the task is worth. This sheet will be pasted into your exercise book so that you can refer to it throughout the year. You may obtain advice regarding your assessments from your teacher or the Head Teacher of the subject.

Please remember, you are also required to complete classwork and homework.

The Year 7 Assessment Handbook is available on the school's website and Millennium Portal:

www.mitchell-h.schools.nsw.gov.au

<https://millennium.education/portal/>

THE SCHOOL'S RESPONSIBILITIES

The school's responsibility

- Setting relevant, high quality tasks to measure student performance in each subject
- Providing a criteria which will be used to assess the task
- Providing the outcomes which will be assessed in the task
- Adhering to the published assessment task schedule and specifying the mark value for each task
- Using school assessment task proforma for the publication of tasks and ensuring consistency in presentation of information across all subjects
- Maintaining a record of each student's performance on each task and reporting on it
- Providing students with information on their progress

Please note:

The School reserves the right to make any changes considered necessary after this handbook has been issued. The changes will be advised in writing two weeks prior to the due date of the assessment task affected.

To complete the assessment task you will need to:

- Carefully read the assessment task issued on the school's proforma and available on your student portal
- Plan and mark the due dates for the tasks in your homework diary and the calendar at the end of this book
- Break the task into small manageable parts and complete it gradually
- Organise any notes, materials and resources that you are using
- Complete any research and keep a list of resources used (bibliography)
- Speak to your teacher if you need help and to check how you are going
- Check that any technology or equipment needed to complete the task is working before the due date
- Correct drafts and complete your presentation
- Complete the feedback/evaluation sheet on your performance on the task
- Keep your drafts in case something happens
- Put your task or any equipment you will need to complete the task in your bag the night before it is due
- Keep a record of your submission of the task
- Keep a record of your results

Late Regulations

If you do not complete the task on the due date, you will need to do the following:

Give your class teacher or the Head Teacher of the subject a note from your parents / carers explaining why your assessment task has not been done on the first day back at school after an absence. **If you have a medical certificate this will explain the reason and no penalty will apply.** Bring in your drafts as evidence of attempting the task.

Please note:

- Unexplained absences are unacceptable because it is a deliberate attempt to advantage yourself.
- Technology failure is not an excuse for late submission of tasks.
- The task must still be handed in and a penalty of 25% of the marks gained each calendar day will be applied. The task will be marked and you will still benefit from the teachers' feedback.

COMMONLY ASKED QUESTIONS

What if you know in advance that you will be absent?

If you know that you will be absent with sufficient reason e.g. a funeral, an approved school activity or urgent medical attention, you will need to explain the circumstances in a note, before the absence, to your class teacher and a new due date will be given.

What if you have been absent from school?

When you have missed a lesson, it is your responsibility to check with your class teacher or peers to see if any relevant information about an assessment task has been provided and arrange to catch up the work.

What happens when you hand in an assessment task?

Your class teacher will keep records of the assessment task completed and handed in. An assessment task receipt sheet will be used. In a formal examination, you will complete an examination attendance slip for each subject.

Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others.

Malpractice includes, but is not limited to:

- Copying someone else's work in part or in whole, and presenting it as your own;
- Using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement;
- Using material directly from books, journals, CDs or the internet or any other source without reference to the source;
- Building on the ideas of another person without referring to the source;
- Buying, stealing or borrowing another's work and presenting it as your own;
- Damaging another student's work;
- Paying for having someone else complete the task for you;
- Submitting work which another person such as a parent, tutor, subject expert or a sibling has contributed to substantially;
- Breaking published school examination rules;
- Using non approved aides during an assessment task;
- Providing false explanations for work not handed in by the due date;
- Assisting another student to engage in malpractice;
- The use of AI generated content, including but not limited to, AI generated task, AI generated and paraphrased task, AI assisted submissions, including those that have been rewritten, paraphrased or translated.

What if you copy other people's work?

A **zero** penalty will be imposed for copying, plagiarism or having someone else do the work for you.

What if you do not make a serious attempt or cheat?

A **zero** penalty will be imposed if you do not make a serious attempt in an assessment task, produce irrelevant or offensive material, or cheat.

Please note: Parents will be informed of any instances of malpractice.

Components	PETAL Writing and Guided analysis	Written Composition	Reading, Comprehension and Writing

English Outcomes

A student:

EN4-RVL-01	uses a range of personal, creative and critical strategies to read texts that are complex in their ideas and construction
EN4-URA-01	analyses how meaning is created through the use of and response to language forms, features and structures
EN4-URB-01	examines and explains how texts represent ideas, experiences and values
EN4-URC-01	identifies and explains ways of valuing texts and the connections between them
EN4-ECA-01	creates personal, creative and critical texts for a range of audiences by using linguistic and stylistic conventions of language to express ideas
EN4-ECB-01	uses processes of planning, monitoring, revising and reflecting to support and develop composition of texts

Assessment Weighting	50%	50%

Geography Outcomes

A student:

GE4-1	locates and describes the diverse features and characteristics of a range of places and environments
GE4-2	describes processes and influences that form and transform places and environments
GE4.3	explains how interactions and connections between people, places and environments result in change
GE4-4	examines perspectives of people and organisations on a range of geographical issues
GE4-5	discusses management of places and environments for their sustainability
GE4-6	explains differences in human wellbeing
GE4-7	acquires and processes geographical information by selecting and using geographical tools for inquiry
GE4-8	communicates geographical information using a variety of strategies

History Outcomes

A student:	
HT4-1	describes the nature of history and archaeology and explains their contribution to an understanding of the past
HT4-2	describes major periods of historical time and sequences events, people and societies from the past
HT4-3	describes and assesses the motives and actions of past individuals and groups in the context of past societies
HT4-4	describes and explains the causes and effects of events and developments of past societies over time
HT4-5	identifies the meaning, purpose and context of historical sources
HT4-6	uses evidence from sources to support historical narratives and explanations
HT4-7	identifies and describes different contexts, perspectives and interpretations of the past
HT4-8	locates, selects and organises information from sources to develop an historical inquiry
HT4-9	uses a range of historical terms and concepts when communication an understanding of the past
HT4-10	selects and uses appropriate oral, written, visual and digital forms to communicate about the past

Assessment Weighting	20%	30%	25%	25%

Mathematics Outcomes

A student:

MAO-WM-01	develops understanding and fluency in mathematics through exploring and connecting mathematical concepts, choosing and applying mathematical techniques to solve problems, and communicating their thinking and reasoning coherently and clearly
MA4-INT-C-01	compares, orders and calculates with integers to solve problems
MA4-FRC-C-01	represents and operates with fractions, decimals and percentages to solve problems
MA4-RAT-C-01	solves problems involving ratios and rates, and analyses distance–time graphs
MA4-ALG-C-01	generalises number properties to operate with algebraic expressions including expansion and factorisation
MA4-IND-C-01	operates with primes and roots, positive-integer and zero indices involving numerical bases and establishes the relevant index laws
MA4-LIN-C-01	creates and displays number patterns and finds graphical solutions to problems involving linear relationships
MA4-LEN-C-01	applies knowledge of the perimeter of plane shapes and the circumference of circles to solve problems
MA4-ARE-C-01	applies knowledge of area and composite area involving triangles, quadrilaterals and circles to solve problems
MA4-ANG-C-01	applies angle relationships to solve problems, including those related to transversals on sets of parallel lines
MA4-GEO-C-01	identifies and applies the properties of triangles and quadrilaterals to solve problems
MA4-DAT-C-01	classifies and displays data using a variety of graphical representations
MA4-DAT-C-02	analyses simple datasets using measures of centre, range and shape of the data
MA4-PRO-C-01	solves problems involving the probabilities of simple chance experiments

Personal Development, Health and Physical Education Outcomes

A student:

PD4-1	examines and evaluates strategies to manage current and future challenges
PD4-2	examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others
PD4-3	investigates effective strategies to promote inclusivity, equality and respectful relationships
PD4-4	refines, applies and transfers movement skills in a variety of dynamic physical activity contexts
PD4-5	transfers and adapts solutions to complex movement challenges
PD4-6	investigates health practices, behaviours and resources to promote health, safety, wellbeing and physically active communities
PD4-7	plans for and participates in activities that encourage health and a lifetime of physical activity
PD4-8	demonstrates self-management skills to effectively manage complex situations
PD4-9	applies and refines interpersonal skills to assist themselves and others to interact respectfully and promote inclusion in a variety of groups or contexts
PD4-10	demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences
PD4-11	demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences

Science Outcomes

A student:	
SC4-1VA	appreciates the importance of science in their lives and the role of scientific inquiry in increasing understanding of the world around them
SC4-2VA	shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures
SC4-3VA	demonstrates confidence in making reasoned, evidence-based decisions about the current and future use and influence of science and technology, including ethical considerations
SC4-4WS	identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge
SC4-5WS	collaboratively and individually produces a plan to investigate questions and problems
SC4-6WS	follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually
SC4-7WS	processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions
SC4-8WS	selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems
SC4-9WS	presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations
SC4-10PW	describes the action of unbalanced forces in everyday situations
SC4-11PW	discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations
SC4-12ES	describes the dynamic nature of models, theories and laws in developing scientific understanding of the Earth and solar system
SC4-13ES	explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resource use and management
SC4-14LW	relates the structure and function of living things to their classification, survival and reproduction
SC4-15LW	explains how new biological evidence changes people's understanding of the world
SC4-16CW	describes the observed properties and behaviour of matter, using scientific models and theories about the motion and arrangement of particles
SC4-17CW	explains how scientific understanding of, and discoveries about, the properties of elements, compounds and mixtures relate to their uses in everyday life

Technology Mandatory Outcomes

A student:

Design and Production Skills

TE4-1DP	designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities
TE4-2DP	plans and manages the production of designed solutions
TE4-3DP	selects and safely applies a broad range of tools, materials and processes in the production of quality projects
TE4-4DP	designs algorithms for digital solutions and implements them in a general-purpose programming language

Knowledge and Understanding

TE4-5AG	investigates how food and fibre are produced in managed environments
TE4-6FO	explains how the characteristics and properties of food determine preparation techniques for healthy eating
TE4-7DI	explains how data is represented in digital systems and transmitted in networks
TE4-8EN	explains how force, motion and energy are used in engineered systems
TE4-9MA	investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions
TE4-10TS	explains how people in technology related professions contribute to society now and into the future

Visual Arts Outcomes

A student:

4.1	uses a range of strategies to explore different artmaking conventions and procedures to make artworks
4.2	explores the function of and relationships between Artist – Artwork – World – Audience
4.3	makes artworks that involve some understanding of the frames
4.4	recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the Visual Arts
4.5	investigates ways to develop meaning in their artworks
4.6	selects different materials and techniques to make artworks
4.7	explores aspects of practice in critical and historical interpretations of art
4.8	explores the function of and relationships between the Artist – Artwork – World – Audience
4.9	begins to acknowledge that art can be interpreted from different points of view
4.10	recognises that art criticism and art history construct meanings
