

Notification of Student Vehicle Registration Details

It is important for the school to know if students are driving to and from school. There are times when we need to notify the driver on situations, for example, head lights are left on or inappropriate parking etc.

It is the responsibility of students to ensure that they follow all of the appropriate road rules and drive carefully at all times.

Students are not permitted to park their cars on the school grounds. They may find parking on Keyworth Drive. Students are not allowed to carry passengers to and from school without the permission of their parent/carer(s). In the case of school excursions, students are not to transport any student(s) from the school unless a signed permission slip has been organised by the teacher responsible of the excursion and has been approved.

Students are not to go to their cars during the school day or play loud music around the school area.

Please ensure that the below slip is filled and returned back to the Deputy Principal as soon as possible.

If there are breaches of these requirements, the school may contact the students' parents/carer(s) to discuss these issues.

Regards

Ms E. Marinis
Principal
